

#TheMonthThatWas

Key updates and highlights from the Kalaari Family / June 2021

2021, Seed

We welcome SimpliContract, a recent addition to the Kalaari Family.

SimpliContract is an Enterprise SaaS tool focused on end-to-end Contract Lifecycle Management (CLM).

We are proud to partner with Guru Venkatesan, Jinaraj P G, and Makesh Kumar in supporting their vision to enable seamless automation and intelligence into CLM for every organization.

2021, Seed

We welcome Portl, a recent addition to the Kalaari Family.

Portl is an intelligent home device that combines advanced sensors & proprietary fitness technologies with AI to create holistic health solutions.

We are proud to partner with Indraneel Gupta & Vishal Chandapeta in supporting their vision to shape India's fitness journey.

Since 2014, Series A

Mastercard made a strategic investment in Instamojo to strengthen both companies' efforts to support MSMEs.

Congratulations to Akash Gehani, Sampad Swain, Aditya Sengupta, and the entire Instamojo team on this partnership. Look forward to seeing you realize your vision of bringing a billion people and 50 million MSMEs into the digital economy.

2021, Seed

Muzigal continues to show tremendous growth.

Since Kalaari invested in Muzigal earlier this year, Muzigal has more than tripled its revenue and increased its number of active learners by 150%. We're proud to be early partners in their vision of democratizing music learning.

Ravinder Singh, Partner at Kalaari

Ravi shared his thoughts on the importance of EVs to India's environment conservation story and how we can make this transition, in a feature on BusinessWorld.

He also wrote about the challenges, opportunities and tailwinds that are driving the shift to electric mobility, in a feature on Economic Times.

Vamshi Reddy, Partner at Kalaari

Technology and smart farming can play a critical role in helping farmers take corrective measures on time, reduce waste and increase income.

Vamshi wrote about the opportunity for AgriTech in a feature on Forbes India.
